

## PROFILE

Keeping away from regular design elements is something that I am passionate about with the strong intent of integrating design, landscaping, design elements, aesthetics along with being close to nature in a way that is yet to be done.

I am a grad at Vellore Institute of Technology (VIT), pursuing a degree in Architecture, believing in work flow under a constrained environment; extremely curious about learning on-site architecture and eager to gain hands-on experience in the field and my name is Soumitha Rajkumar

## Architect

## EDUCATION

### Vellore Institute of Technology (VIT Univ.)

2021 - 2026

CGPA: 7.16

B.Arch.

## WORK EXPERIENCE

### Silver Nest [Design Nest for seniors]

Sep 2024 – Nov 2024

Silver Nest is a unique design visualized for the seniors that offers an engaging lifestyle with amenities complete with healthcare services, recreation centers, social hubs, and peaceful green spaces.

### Jenga Heights [Residential Apartment]

March 2024 – April 2024

Jenga Heights is a distinctive 8-storey residential complex that reimagines urban living through playful and purposeful design. Inspired by the iconic stacking game Jenga, the apartment's concept revolves around the creative extrusion of key living spaces — primarily the bedrooms and kitchens — to form a dynamic, staggered façade.

## SKILLS

### 2D Drafting

AutoCAD 80%

Revit 80%

### 3D Modelling

Revit 80%

Rhino 50%

SketchUp 30%

### Post Production

Revit 65%

D5 70%

Adobe Photoshop 85%

Adobe Fresco 80%
